

# TEAM UP!

TO LEARN MATH

**Multiple Choice:**

$2 + 3 \times 4 = \underline{\quad}$

- (A) 9
- (B) 14
- (C) 20
- (D) 24

**Task:**

Use each number 2, 3, 4, and 5, in any order and each operation, +, -, and  $\times$ , to write an expression which equals 17 in the following format:

$$\square \square \square \square \square \square = 17$$
